

The range of comments from TPR respondents were as follows: Prices started dropping in late October on Ash, Red Oak, Hard Maple, and White Oak. Walnut and Hickory still strong.-Walnut higher grades sought after. Kiln dried lumber sales slow to moderate. Custom work and pallet lumber needs strong.-Lumber market slowing; timber available (ok).-We have more sales - short on white pine logs - Cannot currently meet sales due to a shortage of white pine logs. Ohio needs to plant more white pine.-Demand very weak except walnut and white oak. Ash seems to be picking up. Low grade logs in demand.-We are only sawing for specific orders and concentrating on other parts of the business.-Market steady to slowing.-A lot better than 2009 but is showing signs of tightening up due to all the dry weather. That's our opinion.-A lot of log flow. Stumpage was hard to buy.-Spiked upwards Sept.& Oct; down in Nov.-Prices slowly dropping off as they did last year. Cherry market very poor.-Weak demand for grade lumber and softening prices. Fair demand for blocking lumber. Pricing holding -Too many logs with a falling market -Walnut continues to move well. Everything else is almost stagnant

This report was funded in part by the Renewable Resources Extension Act.
